

We have listened to and financially supported KLOVE radio for about 4 years now, and we're concerned that it's translator signal may be replaced by a LPFM. KLOVE is an asset to our community, both through the music they play and the announcements they make regarding events in our area. They also provide air time for local ministries, such as the Denver Rescue Mission. KLOVE provides excellent music and ministry. It's like a local station, but with international appeal. We enjoy knowing that our relatives in other cities are listening to the same music we are. The most important aspect of KLOVE is that it's totally SAFE! I never worry about what my son will hear on their station, and I can't say that for almost any other Denver radio station. It would be a shame for us to lose KLOVE. Please don't allow LPFM to have priority over KLOVE.

Thank you.
